DETAILED ACTION

BACKGROUND

1. This action is responsive to the following communications: Application filed on 1/28/2004.

2. Claims 1-48 are pending in this case. Claims 1, 20, 30, and 40 are in independent form.

CLAIM OBJECTIONS

3. Claims 8 and 12 are objected to because of the following informalities:
(1) In claim 8 "next" is misspelled as "nect"; and (2) in claim 12 a period is missing.
Appropriate correction is required.

CLAIM REJECTIONS - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. **Claims 40-48** are rejected under 35 U.S.C. §101 because the claimed invention is directed to non-statutory subject matter, and further raises questions as to whether the claims are directed to an abstract idea. More specifically, the claims lack the necessary physical articles or objects to constitute a machine or a manufacture

within the meaning of 35 U.S.C. §101. They are clearly not a series of steps or acts, to be a process, nor are they a combination of chemical compounds to be a composition of matter. Additionally, claims 40–48 fail to define any structural and functional interrelationships between the interface and other elements of a computer that permit the interface's functionality to be realized. Therefore, claims 40-48, being directed toward non-functional descriptive material *per se*, fail to fall within a statutory category.

CLAIM REJECTIONS - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1–48 are rejected under 35 U.S.C. 102(b) as being anticipated by Peter Vale (PG-Publication 2002/0041291. hereinafter "*Vale*").

[0049]), the method comprising the steps of: determining if there was a file previously selected from the file list ("...that was previously chosen ...," para. [0055]); determining if there is a next file listed relative to the previously selected file in the file list ("...interactive element based on the received direction input relative to a previously

selected interactive element ...," para. [0058]); and displaying the file list with the next file highlighted ("...the highlighting from a previously selected interactive element and highlighting (944c) the next selected interactive element ...," para. [0065]).

As to dependent **claim 2**, which depends from **claim 1**, *Vale* further disclose(s):
The method of claim 1 wherein the next file is listed immediately after the previously selected file in the file list ("...to a previously selected interactive element....," para. [0065]).

As to dependent **claim 3**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is listed a predetermined number of files after the previously selected file in the file list ("...the amount of vertical separation between interactive elements ...," para. [0043]).

As to dependent **claim 4**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is listed immediately before the previously selected file in the file list ("... the previously selected interactive element is selected 352.," para. [0041]).

As to dependent **claim 5**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is listed a predetermined number of files before the previously selected file in the file list ("...element at the next vertical level in the direction of direction input 320 that is closest in the horizontal direction to the beginning of the previously selected....," para. [0041]).

As to dependent **claim 6**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is the file listed immediately to the left ("...left arrow 556...", para. [0049]), right ("...right arrow 554...", para. [0049]), up ("...up...", para. [0061]), or down of the previously selected file in the file list ("...down arrow in a single line textbox...", para. [0061]).

As to dependent **claim 7**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is the file listed a predetermined number of files to the left ("...left arrow 556...", para. [0049]), right ("...the horizontal direction ...," para. [0065]), up (), or down of the previously selected file in the file list ("...previous item in the list ...," para. [0049]).

As to dependent **claim 8**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is the file listed immediately in front of or behind the previously selected file in the file list ("... amount that Element 3 overlaps with Element 1...", para. [0043]).

As to dependent **claim 9**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is the file listed a predetermined number of files in front of or behind the previously selected file in the file list ("...overlaps with ...," para. [0043]).

As to dependent **claim 10**, which depends from claim 1, *Vale* further disclose(s):
The method of claim 1 wherein the next file is a file listed on an immediately preceding

Art Unit: 2178

or following screen full of information ("...the interactive element exceeds the width of available display area...", para. [0058]).

As to dependent **claim 11**, which depends from claim 1, *Vale* further disclose(s): The method of claim 1 wherein the next file is the previously selected file in the file list ("...the first interactive element relative to the beginning of the content...", para. [0044]).

As to dependent **claim 12**, which depends from claim 1, *Vale* further disclose(s): The method of claim 1 further comprising the step of: if there was not a file previously selected from the file list ("...selecting...", para. [0058]), displaying the file list with a predetermined default file highlighted ("...an interactive element based on the received direction input relative to a previously selected interactive element or, if no interactive element has been previously selected, based on the direction input relative to the beginning of the displayed content....", para. [0058]).

As to dependent **claim 13**, which depends from **claim 12**, *Vale* further disclose(s): The method of claim 12 wherein the predetermined default file is the first file in the file list ("...the first interactive element relative to the beginning of the content...", para. [0044]).

As to dependent **claim 14**, which depends from claim 1, *Vale* further disclose(s): The method of claim 1 further comprising the step of: if there is not a next file listed relative to the previously selected file in the file list ("...the beginning of the previously

Art Unit: 2178

selected interactive element is selected next...," para. [0046]), displaying the file list with a predetermined default file highlighted ("...is highlighted...," para. [0044]).

As to dependent **claim 15**, which depends from claim 14, *Vale* further disclose(s): The method of claim 14 wherein the predetermined default file is the first file in the file list ("...unless no interactive element has been selected previously, wherein the interactive element closest to the beginning of the content is selected (not shown)...," para. [0041]).

As to dependent **claim 16**, which depends from claim 14, *Vale* further disclose(s): The method of claim 14 wherein the predetermined default file is the previously selected file from the file list ("...unless no interactive element has been selected previously, wherein the interactive element closest to the beginning of the content is selected...," para. [0041]).

As to dependent **claim 17**, which depends from claim 1, *Vale* further disclose(s): The method of claim 1 further comprising the step of in response to a user selecting a file from a file list ("...multiple line textbox ...," para. [0060]), saving the information identifying the selected file ("...An act of switching (953) from navigation mode to edit mode upon receiving an action input also may be included as part of a step from changing (950) the mode of a browsing system.," para. [0060]).
